

CORVALLIS, OREGON,
TUESDAY EVENING MAY 22, 1906.

AS TO MR. WILSON.

There is no position in the county of more concern to the people than the office of county judge. In the person of E. E. Wilson, the people have a candidate who will square with the most exacting standard. He is in the vigor of manhood, being 37 years of age. It was because of his known fitness for the position that he was urged by persons of all political parties to become a candidate. One of his best recommendations for the place is his recognized capacity as a business man. He owns and manages a farm of 400 acres west of Corvallis, and this year paid into the county treasury taxes aggregating the sum of \$130.64. These matters are mentioned merely in illustration of the fact that his substantial interests make it certain that he will have a care for the interests of the other taxpayers of the county.

It is his progressiveness that is perhaps his most noteworthy business trait, and with this his business ability, force and push would be of infinite value in devising means for fully developing the public road system of the county.

In short, Mr. Wilson is a typical man for county judge. He is thoroughly up to the times in probate law and in no sense dependent on attorneys to unravel the high places of the law incident to wills, estates, guardianships and like intricacies of probate court. He is not a resident of the third ward in the city of Corvallis, nor has he ever been a resident of the city. This means that the interests of the provinces of the county outside of the second and third ward of the city, as well as those wards will be in safe hands if Judge Wilson should be elected as presiding officer of the commissioners court. With Wilson as judge and Paul Dodele as commissioner, it will not be a close corporation in the second and third wards inside the corporate limits of Corvallis. Governor general at Manila governing the outside provinces may be all right over in the Philippines, but it is not in order among the sovereign yeomanry of Benton county.

In conclusion it is but just to Mr. Wilson to say, that his views on road and bridge building do not reach the high ideals of skilled architecture exemplified in Judge Woodward's famous and fantastic letter S bridge of some years ago. Mr. Wilson never learned to build a bridge so crooked that in crossing it the leaders in a four-horse team ate hay out of the hind end of their wagon before the driver could get his outfit over the structure.

No officer that has served Benton county in an official capacity has been more faithful in the discharge of his duties than has William Buchanan. He keeps the treasurers office at the court house; where it is divorced from beans, syrup, bacon and other assets of some down town store, and that is a reason why he is a most excellent man for the office.

The point in the case of Harley Hall is that he can if elected, use the salary of the recorder's office to a most excellent advantage, and can at the same time give a complete, capable and painstaking discharge of his official duties. He is a genial, straightforward young man, whom once to know, is to always regard most kindly. Give him the office and he will give honest service in return.

Common Colds are the Cause of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Everyone knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug, and has thirty years of reputation back of it, gained by its cures under every condition. For sale by Graham & Wortham.

Johnson, as guardian of said Archibald Johnson, to sell the above described real estate at public auction to the highest bidder for cash in hand, and to dispose of the proceeds in the manner prescribed by law.

Dated this May 11, 1906.
CYNTHIA E. JOHNSON,
Guardian of said Archibald Johnson.

WEALTH DISCOVERED.

Of Insane Man who Died in Asylum.

Papers are in preparation for the appointment of V. A. Vidito as administrator of the estate of James D. Killbury, who died at the asylum last March. Recent disclosures have rendered necessary the appointment of an administrator.

Deceased was a brother of Mrs. R. S. Barclay, of Tidewater, at whose home he lived for a long time previous to his commitment. Killbury was always regarded as eccentric but in earlier life was quite prosperous. During his stay with the Barclays he spoke of having \$3,000 in a San Francisco bank, but said nothing of having money or property elsewhere. His mental condition was such that little attention was paid to his statements at the time and he was not questioned specifically on the subject.

Before going to make his home with his sister, Killbury lived for a long time at Coos Bay, and since his death letters of inquiry directed to Marshfield to ascertain if possible something further as to the condition of his business affairs. To the surprise of those interested, it has been discovered that Killbury had in a bank at Marshfield more than \$1,500 and a good note for nearly \$100. These funds are available at once by the regularly appointed administrator. Discovery of this money will prompt the investigation into Killbury's statement that he had money in a San Francisco bank.

At the Barclay home Killbury left a quantity of personal effects, among them a trunk, which have not been examined by anyone since he was sent to Salem. The Barclays understand that it will be the business of the administrator to take charge of these. It is believed that further important disclosures will be made when the trunk is opened and contents examined.

The June number of The Pacific Monthly will be extraordinary in fact the equivalent of two numbers in one. It will contain a most graphic and complete symposium contributed by the best writers, business, professional and scientific, covering the recent appalling events in San Francisco. It will be ready about May 22 and will be sold on the news stands at 15 cents per copy.

JOHNNY BEAL DEAD.

Benton County Boy Suicides in Albany.

Johnny Beal, a young man of years, who was born and reared near Wells, Benton county, committed suicide in Albany Saturday night or early Sunday morning by drowning in the Willamette river. The body was recovered Sunday, after a careful search, B. J. Hecker finding the remains at the foot of Mill street. According to report the young man had been in bad health for some time, and a few months ago was obliged to give up his position in the Albany chair factory on that account. He seemed to grow worse and spent a sleepless night of illness Friday night, arising Saturday morning and going for a walk. He did not return Saturday and search was finally instituted with the result stated. On the bank of the river Mr. Beal's hat and coat were found, with a note inside the hat, "Goodbye, I love you all. J. D. Beal." When these significant tokens were discovered, dragging the river was at once begun, and the body recovered about a block below where the articles were picked up.

Johnny Beal was a son of W. A. Beal of Wells, one of Northern Benton's best known farmers. He was brought up in this county, and married Miss Jennie Robbins, May 21st, 1902, a daughter in another well known family for many years residents of the vicinity of Wells, who with a child, survive.

The funeral was held in Albany at the Robbins home at 2 p. m. yesterday.

A fact that added to the sadness of the funeral was that it occurred on the fourth anniversary of the wedding of the young couple. Much sympathy is expressed for all who are bereaved by the untimely passing of the young man, who had ever led a quiet and exemplary life.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Graham & Wortham.
